The Elements - “All that You need to begin Planning your own Wedding”

Get the information you need up front to make the **best choices** and making planning your wedding an enjoyable experience...find out how to avoid the most common wedding blunders. You have access to our expertise throughout the planning of your wedding. How nice have someone on your team that you can call upon any time, whether to help you with major decision or just to run a quick question by them.

We begin by getting to know you...your style, your tastes, your likes and dislikes so to have a **perfect vision** of the wedding to come. Once the vision is in place, we can help you determine an overall budget and/or a **budget breakdown** for the wedding. (*You may know how much you want to spend but how do you know how much you can spend on the wedding dress or a photographer and stay within your budget.*) Next, we create a **personalized list of vendors** (photographers, florist, etc.) recommended specifically for you, to match your vision and budget. (*This saves you time and frustration in the interviewing process and helps insure the best selections.*) You are also provided with a customized itinerary and checklist to keep you on track. You are ready to begin putting your wedding team together.

The Essentials - “A Must for Every Bride”

Now it's time to put all the planning into action. So much time and expense has been put into this one day, one moment and you want to enjoy every minute of it. You can now turn it over to a professional that has only your interest at heart. The pressure is lifted from you. Someone else, someone that you trust to answer on your behalf, handles the last minute details and little mishaps. While you are having your hair and make up done or are enjoying a bridal lunch with your mother and bridesmaids, we are making sure everything is going as planned and staying on time. We are adding all the little details that make your wedding your uniquely yours which allows the rest of your wedding team to focus on what they are hired to do.

This service includes a final meeting with your venue and overseeing the rehearsal, ceremony and reception. We are the “go to” contact throughout the day so you are not bothered with all the final questions or issues that arise. Often you aren't even aware of the “little issues” until after the honeymoon. We never take over- only act upon your wishes so you can relax and enjoy the day with your family and friends.
